

PAGERO E-INVOICE

– 30 minutes and you are online!

By invoicing electronically your company can achieve better profitability, improved cash flow, and increased efficiency and security. Electronic invoicing is a simple way of saving time, money and the environment.

ABOUT PAGERO E-INVOICE

Pagero e-invoice is based on a modern technical platform with "many-to-many" architecture, unlike older "point-to-point" solutions. Pagero is linked/connected to most large invoice exchanges in Scandinavia. Through Pagero, your company will become part of Scandinavia's fastest-growing e-invoicing network, allowing it to achieve major financial advantages of scale.

SENDING E-INVOICES

Pagero e-invoice creates and sends e-invoices in a number of different formats. Invoices are created as usual and then sent to the recipient with no change to procedures. Invoices are sent to recipients via Pagero Virtual Printer, interpreted and conveyed to the correct recipient in the correct format. Pagero e-invoice functions with any business system.

RECEIVING E-INVOICES

Pagero e-invoice can also be used for receiving and processing electronic invoices. The e-invoices are collected in Pagero Inbox in a structured and well-planned way. When you receive e-invoices via Pagero, there's no need for stamping and scanning, since you yourself choose the e-invoice format for compatibility with your existing business system.

A SINGLE FLOW WITH PAGERO E-INVOICE

With Pagero e-invoice you can also send e-invoices to companies who cannot receive invoices electronically. In such cases, a paper invoice is sent instead, via External Print, for enveloping and postage optimisation. Pagero can also offer scanning services if required.

THE E-INVOICE PROCESS

Pagero e-invoice completely eliminates steps 3-8, as printing, enveloping, postage, scanning, etc. are not required.

- | | |
|--------------------------|--------------------------------|
| 1. Order | 6. Invoice receipt and sorting |
| 2. Invoice created | 7. Scanning of invoice |
| 3. Print out | 8. Validation |
| 4. Enveloping (+postage) | 9. Check and approval |
| 5. Postal service | 10. Payment |

ADDITIONAL SERVICES:

PAGERO E-ARCHIVE

Pagero e-archive archives your invoices and makes them searchable and interpretable for 10 years – all as per the regulations of the Accounting Act. Pagero e-archive can be used separately as an additional service. If the service is cancelled, it is possible to order a DVD-rom containing your archive from Pagero.

PAGERO EXTERNAL PRINT

External Print allows companies using Pagero e-invoice to send all their invoices electronically, regardless of whether the recipient can receive e-invoices or not. Recipients who can receive e-invoices will do so and those who can't will receive a paper invoice instead.

CONTACT

Pagero e-invoice can be ordered directly at www.pagero.com or via phone: +46 31 730 88 30.
